

HANDY DICTIONARY
OF THE
GREEK AND ENGLISH LANGUAGES

COMPILED BY
PROF. KARL FEYERABEND, PH.D.
OF CÖTHEN, GERMANY

GREEK-ENGLISH

With an Introduction to the History of Greek Sounds

DAVID MCKAY COMPANY, INC.
NEW YORK

COPYRIGHT, 1918, BY DAVID MCKAY

Printed in the United States of America

Preface.

This Pocket-Dictionary is not intended to compete with any of the larger Lexicons, but as it contains all the words which occur in the authors commonly read in schools, and also those of the Greek New Testament, it will perhaps prove useful to beginners, and may also lend occasional service to more advanced students, when they are unable, or disinclined, to look out the words in a more extensive work. At any rate it has the advantage of cheapness.

Those who use the book should observe that, as a rule, the quantity of doubtful vowels (α , ι , υ) is only indicated when these are long ($\bar{\alpha}$, $\bar{\iota}$, $\bar{\upsilon}$); when they are short, the mark of quantity is omitted, except in some special cases. Where no mark is found, it is to be assumed that they are short.

As the Substantives ending in $-\epsilon\acute{\upsilon}\varsigma$ regularly form the Genitive in $-\acute{\epsilon}\omega\varsigma$, this termination has been omitted. This applies also to the words ending in $-\iota\varsigma$ with the Genitive in $-\epsilon\omega\varsigma$. Unless some other form, such as $-\iota\delta\omicron\varsigma$, $-\iota\omicron\varsigma$, is given, the form in $-\epsilon\omega\varsigma$ is to be taken for granted.

My best thanks are due to Mr. H. HAVELL, English Lecturer in the University of Halle, for some valuable assistance.

Some Remarks on the History of Greek Sounds.

As the Greek language, though its tradition is unbroken from Homer and Hesiod down to its present form of Romaic or Modern Greek, has gone through marked changes in grammar and vocabulary, its pronunciation as a living tongue has, in the course of so many centuries, suffered no less considerable alterations.

When in the 15th century, after a long eclipse, the knowledge and study of Greek was once more brought within the intellectual horizon of the western nations of Europe by Byzantine scholars driven from their country, the bearers of the new learning brought with them the mode of pronunciation to which they were accustomed. But soon the observation forced itself on western students that the Byzantine pronunciation was at a wide distance from the written tradition of the language, and did not correspond to the sounds which people were accustomed to give to Greek words in their Latin form, such as *ecclesia* or *alphabetum*. And when it was found out that many passages in ancient authors pointed to another pronunciation, there arose strong doubts as to the authority of Byzantine tradition. Already in 1512, Aldus Manutius the Elder published a small treatise on the faulty pronunciation of some vowels and diphthongs; but the chief champion for a more correct rendering of Greek sounds was the famous Desiderius Erasmus. Though in his own practice he still adhered to the traditional method, yet his (Latin) Dialogue on the right pronunciation of the Latin and Greek languages, 1528, furnished for the first time scientific arguments for the fact that the phonetic system of the period of Plato must have been widely different from that of the Byzantines.

In England, the views of Erasmus, who was a reformer only in word, not in deed, were carried into practical effect by John Cheke and Thos. Smith. Sir J Cheke, professor of Greek at Cambridge and one of

the tutors of the prince, afterwards Edward VI, is chiefly distinguished for his exertions in introducing the study of Greek language and literature into his country. But having dictated to his pupils a certain mode of pronouncing, he was violently assailed on that account by Stephen Gardiner, bishop of Winchester, then Chancellor of the University. Yet, notwithstanding the veto of this arbitrary prelate, the system of Cheke prevailed, and still prevails. Gardiner had strictly forbidden the distinction between α and ε; ει, οι and ι in pronouncing under penalty of expulsion from the University (1542).

On the Continent, at the close of the 16th century, the Erasmians had made good their case at all the chief seats of classical learning, led by such men as Theodore Beza and Henry Estienne (Stephanus). In all the schools and universities of Europe the so-called Erasmian pronunciation is in use, only modified by the peculiar phonetic systems of the different languages; and at present the modern Greeks are the only nation that apply the sounds of their vernacular speech to the language of their forefathers.

Specimen of modern Greek pronunciation

(the opening lines of Homer's Iliad):

Μῆνιν ἄειδε, θεά, Πηληϊάδεω Ἀχιλῆος
 mi'njn aí'dhǵ thǵa' pilli'iaðh'ǵ aǵili'ǵs
 οὐλομένην, ἣ μυρ' Ἀχαιοῖς ἄλγε' ἔθηκεν,

 a'trǵidhi's tǵ ana'ks andhro'n ke dhí'ǵs aǵi'lǵfs.

VIII

There is no doubt that the value given here to the letters of ancient Greek cannot have been the original one. Though the spelling has remained the same, the sounds have greatly changed. In French, and still more in English, the difference between the spoken and written language is easily explained by the tendency to keep the spelling in accordance with the etymological origin of the words. But a similar reason must not be assumed for the time when the ancient Greeks had to adopt an alphabet for their living language. They were not bound by obligations to a former stage of their idiom. It would be quite unaccountable, if they had rendered the one sound $\bar{\iota}$ by ι , η , υ , ε , \omicron , or ε by ε and α , instead of assigning to each letter its own sound; or if they had introduced the cumbrous machinery of two aspirates and three accents. They were at liberty to act according to the well-known rule of all spelling-reformers, "write as you speak"; and when the Athenians, in 403 under the Archon Euclides, made a spelling-reform, their writing was not yet petrified by a long literary use. It is, therefore, almost certain that, when they wrote α , ε , $\alpha\upsilon$, \omicron , $\varepsilon\upsilon$, etc., they meant these combinations of letters as real diphthongs or blendings of two vowel sounds, such as $a + i$, $a + u$, $o + i$, etc., and that, when they distinguished between $\piνεῦμα$ $\psiιλόν$ and $δασύ$, they employed the latter sign for an aspirate like our h .

Guided partly by the indications occurring in ancient writers, and partly by the mutations of letters which appear in inscriptions and manuscripts, our philologists have succeeded in establishing the history of sound-changes, and the state of Greek pronunciation at different epochs, with a certain degree of precision, e.g. in the time of Plato, Xenophon, and the great orators (4th century B.C.). On the foundation laid by their learned investigations we may, therefore, trace the changes which the sounds of the Greek written characters underwent during the development of classical literature.

1. *Vowels.*

Of the seven signs for simple vowels (α , ε , η , ι , \omicron , ω , υ) three (α , ι , υ) stand for long as well as short

sounds. The value of α and ι (equivalent to Italian a and i) is not contested. The original pronunciation of υ must have been \bar{u} ; in the classical period it represented the French u , or German \bar{u} ; the Byzantines changed it into i . More doubtful is the history of the ϵ - and o -sounds. They were at first represented only by two letters, ϵ (which at the same time served for $\epsilon\iota$ arising out of ϵ) and o (serving also for ou lengthened from o). In 403 B.C., the Athenians adopted the usage, existing long before with the Ionians of Asia, of distinguishing the long and short sounds of these vowels by introducing the separate letters η and ω for the long sounds. This distinction between long and short being confined to ϵ and o makes it probable that there was also a difference in the character of these vowels. From the fact that the Dorian (and Latin) $\bar{\alpha}$ became η in the Ionian and Attic dialects, it appears that η in the older period represented a long open e (French \bar{e}), as likewise ω was long and open. At the beginning of our era η had changed into a close e , and as late as from the 4th century A.C. by degrees it generally became an \bar{i} , and finally an \bar{i} , common long before in Boeotia and Thessaly. With an opposite tendency, ϵ and o lost their original close sound (approaching to i and u), and became open.

2. Diphthongs.

In the combinations of $\bar{\alpha}$, η , ω with ι and υ (the latter with the value of u), which may be called improper diphthongs, as it is very difficult to blend them together, the second element was early, about 300 B.C., neglected. The $\bar{\alpha}\iota$, $\eta\iota$, $\omega\iota$ especially were simplified to α , η , φ with merely a written difference. There is evidence that $\upsilon\iota$, occurring only before vowels, had about 300 B.C. become υ . Likewise $\alpha\iota$, $\epsilon\iota$, $\upsilon\iota$ before vowels dropped their ι in pronunciation and became α , ϵ , o (compare $\pi\omicron\iota\eta\tau\acute{\iota}\varsigma$ and Latin *poëta*). They were primarily, of course, proper or real diphthongs, $\alpha + \iota$, $\epsilon + \iota$, $o + \iota$, with the stress on the first element, as is evident from such contractions or crases as $\kappa\acute{\alpha}\kappa\epsilon\iota\upsilon\omicron\varsigma$, $\mu\omicron\upsilon\sigma\tau\acute{\iota}\nu$ ($\mu\omicron\iota\iota\ \acute{\epsilon}\sigma\tau\iota\nu$). In Hellenistic times $\epsilon\iota$ began to stand for $\bar{\epsilon}$; $\alpha\iota$ (= Latin *ae*, which also was a real diphthong = Engl. *i* in *mine*) preserved its value =

$\alpha + \iota$ at least as late as the 4th century A.C.; with the Byzantines it has become an open e . That $o: = o$ (close) + ι , being naturally very near o , was changed into that sound, is to be observed from 100 B.C. onwards; in modern Greek it has become i . In modern Greek $\alpha\upsilon$ ($\alpha + u$) and $\epsilon\upsilon$ ($e + u$) have become av and ev , or af and ef . ov , first a genuine diphthong = $o + u$, must have been changed into a monophthong, or simple vowel sound, at a pretty early period; this sound of u it has preserved until the present day.

3. Consonants.

Of the semi-vowels λ , μ , ν , ρ , σ three are nasals: labial $\mu = m$; nasal $\nu = n$; guttural γ (before γ , κ , χ , called by the grammarians $\tilde{\alpha}\gamma\mu\alpha$ or $\tilde{\alpha}\gamma\gamma\mu\alpha$) = n followed by g , as in English *finger*. Of these only ν occurs at the end of a word; μ before β , π , φ , ϕ may have had the value of a sound intermediate between m and n . ρ was, as it still is, dental, uttered with the tip of the tongue. σ has always been voiceless or sharp, except before μ and β ($\Sigma\mu\acute{o}\rho\nu\alpha$, $\sigma\beta\acute{\epsilon}\nu\nu\mu\iota$), when it was pronounced as z . The rough breathing ($\pi\nu\epsilon\delta\mu\alpha$ $\delta\alpha\sigma\acute{\upsilon}$; *spiritus asper*) = h , wanting in the Ionian dialect of Asia Minor, was dropped in the course of time, as Latin h was in the Romance or Neolatin languages.

Of the so-called $\tilde{\alpha}\varphi\omega\nu\alpha$ or mutes, β , γ , δ , π , κ , τ correspond to the common English sounds of b , g , d (in *get*), p , k , t . The genuine pronunciation of the three aspirates φ , χ , θ is indicated by their transcription in Latin = *ph*, *ch*, *th*, i.e. $p + h$, $k + h$, $t + h$ (p , k , t with a breathing immediately following). They were mutes, whereas with the modern Greeks they are continuants, denoting *f*, *th* or *ch* (in Germ. *ach* and *ich*), and *th* (in Engl. *think*). Similarly β , γ , δ in modern Greek are spirants = *v*, *y* (*gh*), *dh*. π and κ have in some cases become *f* and *ch*.

Of the three double consonants, ξ and ϕ were always, and are still, $k + s$ and $p + s$. More difficulty is caused by ζ , which has finally developed into a *z*, but with the ancients was a double sound, according to some authorities $\sigma (= z) + \delta$, to others $\delta + \sigma (= z)$. The latter mode of pronouncing it is the common one in England (*dz*).

Specimen of the usual pronunciation of Greek
in England.

A

A, α (ἄλφα) first letter of the alphabet; as a numeral α' = 1, α = 1000.

ἄ Dor. = ἦ; ἄ Dor. = ἦ.

ἄ, ἄἄ *int.* ah, alas, woe.

ἄ-ἄἄτος 2 invulnerable, inviolated; infallible.

ἄ-ἄγῆς 2 unbroken; infrangible.

ἄ-απτος 2 untouched; unapproachable.

ἄ-ἄσχετος 2 = ἄσχετος.

ἄἄω, ἄἄζω to hurt, infatuate, befool.

ἄ-ἄἄκῶ to be unknowing or insuspicious.

ἄ-ἄἄρῆς 2 not burdensome.

ἄ-ἄἄσάνιστος 2 unexamined, untested. [ent.]

ἄ-ἄἄσίλευτος 2 independ-)

ἄ-ἄἄτος 2 impassible; inaccessible; consecrated.

ἄ-βέβαιος 2 unsure, unsteady, precarious.

ἄ-βελτερίᾱ, ἦ silliness; awkwardness. [stupid.]

ἄ-βέλτερος 3 and 2 silly,)

ἄ-βίωτος 2 not worth living, intolerable.

ἄ-βλᾱβῆς 2 innoxious, harmless; unhurt. [unused.]

ἄ-βληῆς, ἦτος not yet shot,)

ἄ-βλητος 2 unwounded.

ἄ-βληχρός 3 weak, delicate; slow.

ἄ-βουλέω to be unwilling.

ἄ-βούλητος 2 involuntary; undesired.

ἄ-βουλίᾱ, ἦ thoughtlessness; helplessness.

ἄ-βουλος 2 unadvised; careless. [voluptuary.]

ἄβρο-δίαιτος 2 weakling,)

ἄ-βρομος 2 roaring, noisy.

ἄβρός 3 luxurious; delicate, weak; elegant.

ἄβροσύνη, ἄβρότης, ἦ luxuriousness; elegance.

ἄ-βροτάζω to miss, fail.

ἄ-βροτος 3 and 2 immortal; divine; holy.

ἄβρῶνω to spoil; to adorn; M. to boast.

ἄ-βυσσος 2 unfathomable; abyss, nether world.

ἀγάζομαι see ἄγαμαι.

ἀγᾱθo-εργίᾱ, ἦ deserving deed.

ἀγᾱθo-εργός, δ benefactor.

ἄγᾱθός 3 good, proper; apt; useful; brave, strong;

noble, well-born; wise; honest, righteous; patriotic.

— τὸ ἀγᾱθόν the good, good fortune; welfare; benefit, interest. [bounty.]

ἀγᾱθωσύνη, ἦ goodness,)

ἀγαίομαι = ἄγαμαι.

ἀγᾱ-κλεῆς 2, ἀγα-κλει-

τός 3, ἀγα-κλυτός 3 highly renowned, glorious,

illustrious.

ἀγαλλιᾶω and *M.* to rejoice, shout.
 ἀγάλλω to adorn, glorify; *P.* to glory, exult.
 ἄγαλμα, τό ornament; splendid work; statue.
 ἀγαλματο-ποιός, ὁ sculptor.
 ἄγαμαι *P.* to wonder, stare; to admire, praise; to annoy; to be jealous; to be indignant or angry. [ingly.]
 ἀγαμένως *adv.* approvingly.
 ἄ-γάμος 2 unmarried; ill-fated. [too much.]
 ἄγαν *adv.* much; entirely;
 ἀγανακτέω to be uneasy, vexed, or discontented.
 ἀγανακτητός 3 irritating.
 ἀγάν-νιφος 2 covered with snow. [cheering.]
 ἀγάνος 3 friendly, gentle;
 ἀγάνο-φροσύνη, ἡ gentleness, meekness.
 ἀγάνο-φρων 2 tender-hearted, meek.
 ἀγάομαι = ἄγαμαι.
 ἀγάπάζω (and *M.*), ἀγά-πάω to welcome; to treat kindly; to love, esteem; to be contented, to acquiesce.
 ἄγάπη, ἡ love, charity; agape.
 ἀγαπ-ήνωρ, ορος manly.
 ἀγαπητός 3 beloved; amiable; welcome; sufficient;
 ἀγαπητῶς sufficiently; scarcely.
 ἀγάρ-ροος (-ρους) 2 gushing vigorously.
 ἀγά-στονος 2 rushing vehemently.
 ἀγαστός 3 admirable.

ἄ-γαυός 3 illustrious; high, noble. [proud.]
 ἄ-γαυρός 3 admirable;
 ἀγγᾶρεύω to send as courier. [mail-service.]
 ἀγγαρήιον, τό Persian;
 ἄγγᾶρος, ἀγγαρήιος, ὁ courier, riding postman.
 ἀγγεῖον, τό vessel, receptacle, urn. [order.]
 ἀγγελίᾱ, ἡ message, news;
 ἀγγελίης, ὁ messenger.
 ἀγγελιη-φόρος, ὁ message-bearer; chamberlain.
 ἀγγέλλω to announce, report; to tell, order.
 ἀγγελμα, τό = ἀγγελία.
 ἀγγελος, ὁ, ἡ messenger; envoy; angel.
 ἀγγήιον, τό and ἄγγος, τό = ἀγγεῖον. [come!]
 ἄγε, ἄγετε well then! up!
 ἀγείρω to gather, collect; to ask alms.
 ἀγελαῖος 3 gregarious, forming a flock.
 ἄγε-λείη, ἡ driver or dispenser of booty. [band.]
 ἀγέλη, ἡ herd, flock; troop;
 ἀγεληδόν *adv.* in herds.
 ἄ-γενεᾱ-λόγητος 2 without pedigree.
 ἄ-γένειος 2 beardless.
 ἄ-γενής, ἄ-γεννής 2 unborn; not noble, plebeian, mean, unmanly.
 ἄ-γένητος, ἄ-γέννητος 2 unborn, uncreated; ignoble, mean.
 ἄ-γέραςτος 2 without a gift of honour, disregarded.
 ἄγερσις, ἡ collection, gathering.

ἀγέρωχος 2 valiant, gallant; impetuous.

ἄ-γευστος 2 untasted; inexperienced.

ἄγη, ἡ astonishment; envy.

ἀγ-ηλατέω to banish.

ἀγ-ηνορίη, ἡ manliness; haughtiness.

ἀγ-ήνωρ, ορος manly, magnanimous; haughty.

ἀ-γήραος 2, ἀγήρατος 2, ἀγήρως, ων not ageing, imperishable.

ἀγητός 3 = ἀγαστός.

ἀγιάζω, ἀγίζω to consecrate.

ἀγιασμός, δ sanctification.

ἀγινέω to lead; to carry, convey. [rable.]

ἄγιος 3 holy, sacred, venerate.

ἀγιότης, ἡ, ἀγιωσύνη, ἡ holiness, sanctity.

ἀγκάζομαι *M.* to lift up (in the arms), to embrace.

ἀγ-καλέω = ἀνακαλέω.

ἀγκάλη, ἡ, ἀγκάλῃς, ἰδος, ἡ, ἀγκοίνη, ἡ elbow, bent arm.

ἀγκάς *adv.* in the arms.

ἄγκιστρον, τό fishing-hook.

ἀγ-κλίνω = ἀνακλίνω.

ἄγκος, τό ravine, glen.

ἀγ-κρεμάννυμι = ἀνακρεμάννυμι. [thong.]

ἀγκυλή, ἡ bend, loop, noose;

ἀγκυλο-μήτης, ου cunning, deceitful, artful.

ἀγκυλος 3 crooked, curved.

ἀγκυλό-τοξος 2 with curved bow. [crooked beak.]

ἀγκυλο-χείλης, ου with

ἄγκυρα, ἡ anchor; support.

ἀγκών, ὄνος, δ curve, bend; elbow; projection; glen.

ἀγλαΐα, ἡ splendour, pomp, magnificence; delight; pride. [make a show.]

ἀγλαΐζομαι to shine, to

ἀγλαΐσμα, τό ornament.

ἀγλαό-καρπος 2 bearing splendid fruit.

ἀγλαός 3 splendid, shining; magnificent.

ἀγλα-ώψ, ὄπος bright, beaming.

ἄ-γλωσσος 2 barbarous, foreign. [not felled.]

ἄ-γναφος 2 not carded,

ἀγνεία, ἡ purity, chastity.

ἀγνεύω to be pure or chaste; to abhor.

ἀγνίζω to purify, expiate.

ἀγνισμός, δ purification, expiation.

ἄ-γνοέω to ignore, not to know; to mistake; to overlook, to wink at; to doubt; to err unconsciously.

ἄ-γνόημα, τό, ἄ-γνοια, ἡ ignorance; indiscernibleness; mistake.

ἄγνος 3 pure, chaste; holy, sacred; purifying.

ἄγνότης, ἡ purity.

ἄγνυμι to break (in pieces).

ἄ-γνωμονέω to act thoughtlessly.

ἄ-γνωμοσύνη, ἡ want of judgment, imprudence; misunderstanding; obstinacy; regardlessness.

ἄ-γνώμων 2 imprudent; regardless, unfair; obstinate; not knowing, mistaking.

ἄ-γνώς, ὄτος unknown,

strange; not knowing, ignorant. [obscurity.]

ἀ-γνώσιᾱ, ἡ ignorance;]

ἀ-γνώστος, ἄγνωτος 2 unknown; unrecognisable, unintelligible.

ἀ-γονος 2 unborn; childless; barren.

ἄγορά, ἡ meeting, congregation, assembly; council; speech; eloquence; market-place, market; victuals; commerce, trade.

ἀγοράζω to frequent a market-place; to buy or sell (in the market).

ἀγοράτος 2 belonging to a public assembly or a market; street-lounger.

ἀγορᾶ-νόμος, ὁ surveyor of the market.

ἀγοράομαι to speak in an assembly or publicly; to tell, order. [purveyor.]

ἀγοραστής, οὗ, ὁ buyer,]

ἀγορεύω = ἀγοράομαι.

ἀγορήθεν *adv.* from an assembly. [sembly.]

ἀγορήνδε *adv.* into an as-]

ἀγορητής, οὗ, ὁ public speaker, orator.

ἀγορητής, ὅς, ἡ gift of speaking.

ἄγος, ὁ leader, captain.

ἄγος¹, τό abomination, blood-guiltiness, capital crime; expiation.

ἄγος², τό reverence, awe.

ἄγοστός, ὁ palm of the hand. [capture, game.]

ἄγρᾱ, ἡ chase, hunting;]

ἀ-γράμματος 2 unlettered

ἀ-γραπτος 2 unwritten.

ἀγρ-αυλέω to dwell in the open air.

ἄγρ-αυλος 2 dwelling in the fields, rural. [neutral.]

ἄ-γρᾱφος 2 unwritten;]

ἄγρευτής, οὗ, ὁ hunter.

ἄγρεύω, ἄγρέω to hunt, catch; ἄγρει, ἄγρεῖτε up! come on!

ἄγριαίνω to grow angry.

ἄγρι-έλαιος, ἡ wild olive, oleaster.

ἄγριος 3 rural; wild; brutal, cruel; malignant; furious, passionate.

ἄγριότης, ἡτος, ἡ wildness, rudeness.

ἄγριό-φωνος 2 with a harsh voice.

ἄγριόω to infuriate; *P.* to grow angry, enraged, or cruel. [in the fields.]

ἄγρο-βότης, οὗ, ὁ feeding;]

ἄγρόθεν *adv.* from the field or country.

ἀγρ-οικιά, ἡ rusticity, boorishness.

ἀγρ-οικος or ἀγρ-οῖκος 2 rustic, boorish, churlish; untilled.

ἀγροιώτης = ἀγρότης.

ἄγρόνδε *adv.* to the country.

ἄγρο-νόμος 2 living in the country; agriculturist.

ἄγρό-νομος 2 used for pasture. [estate, farm.]

ἄγρός, ὁ field, arable land;]

ἄγρότερος 3 wild; country-loving

ἄγρότης, οὗ, ὁ countryman, rustic. [or awake.]

ἀγρ-υπνέω to be sleepless]

ἀγρ-υπνιά, ἡ sleeplessness.

ἄγρ-υπνος 2 sleepless wakeful.

ἀγρώσω to hunt, catch.

ἀγρωσις, ἡ field-grass, green provender. [street.]

ἀγυιά, ἡ way, road, path, }

ἀγυεύς, ὁ protector of the roads (Apollo).

ἀ-γύμναστος 2 untrained, unskilled; unplagued.

ἀγῦρις, ἡ congregation, meeting; troop.

ἀγυρτάζω to beg, collect.

ἀγύρτης, ου, ὁ beggar, tramp; buffoon.

ἀγχέ-μαχος 2 fighting hand to hand.

ἀγχι *adv.* and *prp.* near, at hand, close by; *comp.*

ἄσσον, ἄσσοτέρω, *sup.*

ἀγχιστος. [sea-girt.]

ἀγχι-ἄλος 2 near the sea; }

ἀγχι-βάθης 2 deep near the shore. [to the gods.]

ἀγχι-θεός 2 godlike, akin/ }

ἀγχι-μαχητής, οὔ = ἀγ-χέμαχος. [close to.]

ἀγχι-μολόν *adv.* near, }

ἀγχι-νοία, ἡ presence of mind, sagacity.

ἀγχι-νοος 2 ready of mind, ingenious. [bouring.]

ἀγχι-πιολίς, ὁ, ἡ neigh- }

ἀγχιστεῖα (-στεῖα), ἡ near relationship; succession.
